

Gender Review of National Adaptation Plan (NAP) Documents

As part of its ongoing initiative on gender-responsive NAP processes, the NAP Global Network has undertaken a systematic review of NAP documents posted on the UNFCCC's [NAP Central](#) to assess the integration of gender considerations.

The document reviews explored how gender considerations have been addressed in the documents, as well as how women are positioned. It is important to note that most of the documents do not include much detail on the process undertaken to develop the NAP document or on strategies for implementation and M&E. Consequently, a lack of evidence in the document does not necessarily mean that gender hasn't been considered in a particular aspect of the NAP process—it may simply indicate a lack of documentation or that there is additional work to be done to elaborate on particular aspects of the plan.

Below is a summary of the review of Armenia's NAP document.
