

Gender Review of National Adaptation Plan (NAP) Documents

As part of its ongoing initiative on gender-responsive NAP processes, the NAP Global Network has undertaken a systematic review of NAP documents posted on the UNFCCC's [NAP Central](#) to assess the integration of gender considerations.

The document reviews explored how gender considerations have been addressed in the documents, as well as how women are positioned. It is important to note that most of the documents do not include much detail on the process undertaken to develop the NAP document or on strategies for implementation and M&E. Consequently, a lack of evidence in the document does not necessarily mean that gender hasn't been considered in a particular aspect of the NAP process—it may simply indicate a lack of documentation or that there is additional work to be done to elaborate on particular aspects of the plan.

Below is a summary of the review of Kenya's NAP document.

Country	Kenya
Document reviewed	Kenya National Adaptation Plan 2015-2030: Enhanced climate resilience towards the attainment of Vision 2030 and beyond (2017)
Gender and/or women referenced?	Yes
Summary of gender references	Gender equity is identified as an objective of a specific adaptation action. The action on “Gender, Vulnerable Groups and Youth” is one of the 19 sectoral adaptation actions identified in the document that aims to strengthen the adaptive capacity of vulnerable groups, including women.
Gender concepts referenced	Gender equity
Context for reference to gender	Consideration for implementation
Positioning of women	As a group that is particularly vulnerable to climate change As beneficiaries of adaptation actions
