

Gender Review of National Adaptation Plan (NAP) Documents

As part of its ongoing initiative on gender-responsive NAP processes, the NAP Global Network has undertaken a systematic review of NAP documents posted on the UNFCCC's [NAP Central](#) to assess the integration of gender considerations.

The document reviews explored how gender considerations have been addressed in the documents, as well as how women are positioned. It is important to note that most of the documents do not include much detail on the process undertaken to develop the NAP document or on strategies for implementation and M&E. Consequently, a lack of evidence in the document does not necessarily mean that gender hasn't been considered in a particular aspect of the NAP process—it may simply indicate a lack of documentation or that there is additional work to be done to elaborate on particular aspects of the plan.

Below is a summary of the review of Paraguay's NAP document.

Country	Paraguay
Document reviewed	Plan Nacional de Adaptación al Cambio Climático (PNACC) (Version 2 - 2022)
Gender and/or women referenced?	Yes
Summary of gender references	The NAP identifies gendered vulnerabilities as one of the six cross-cutting themes of the plan to be considered in the identification of impacts, the risk analysis, and the identification of adaptation options. One of the objectives of this theme is to strengthen women's leadership to facilitate their participation and access to opportunities.
Gender concepts referenced	Gender responsiveness Gender differences Other: Gendered vulnerabilities
Context for reference to gender	Gender identified as a cross-cutting issue for the plan
Positioning of women	Beneficiaries of adaptation actions Agents of change
